Management and Administration
This is the Sixth Annual Publications and Presentations Directory listing all publications and presentations, both internal and external, of this laboratory's Research Staff Members of the past year. Authors who are not San Jose Research Staff Members have been indicated with an asterisk. Underlined names indicate the speakers in the Presentation section. A few 1972 entries have been included because they were received too late for the previous year's directory. Listings of previous years are available in the Research Library.

The Directory is organized by laboratory department (K01, K02, etc., see Table of Contents), and alphabetically by author within a department. Authors' names are entered in sequence as they appeared on the original document.

The listing of IBM Confidential publications is excluded from the Directory and is available separately from the library on a "need to know" basis.

This publication was prepared on an IBM Communicating Mag-Card using the Terminal System Moderator (TSM).
INTRODUCTION

This is the sixth edition of a listing of San Jose Research Laboratory publications and presentations.

In committing laboratory resources to this effort, we are hoping to accomplish a number of things:

1. Provide new employees with an organized introduction to recent laboratory accomplishments as reflected in our publication.

2. Provide an up-to-date source of reference to recent activity to be used in communicating with others in organizations in and outside IBM.

3. Relieve department secretaries of the need for maintaining and reproducing individual listings.

The publications of this laboratory represent the most complete inventory of our accomplishments. We are endeavoring to make these accomplishments more visible and at the same time help you become better acquainted with the work of your colleagues.

Clarke, D. C. and Bennett, J. L. J. Amer. Soc. for Inform.

AN INTERACTIVE SYSTEM FOR CREATING, EDITING, AND
DISPLAYING A GEOGRAPHIC BASE FILE
Giddings, G. M. and Carlson, E. D. IBM Research Report
RJ-1288.

MULTIPLE ADDITION BY RESIDUE THRESHOLD FUNCTIONS AND
THEIR REPRESENTATION BY ARRAY LOGIC
Ho, I. T.* and Chen, T. C. IEEE Trans. on Computers,
ADJUSTMENTS OF ELEMENTS OF A TABLE TO MEET SPECIFIED MARGINAL TOTALS

INFORMATION FOR PROBLEM SOLVING: THE DEVELOPMENT OF AN INTERACTIVE GEOGRAPHIC INFORMATION SYSTEM

Mantey, P. E. See also Christiani, E. J.* (K54).

ALGORITHMS FOR TRIANGULAR DECOMPOSITION OF BLOCK HANKEL AND TOEPLITZ MATRICES WITH APPLICATION TO FACTORING POSITIVE MATRIX POLYNOMIALS

BOUNDS FOR WEIGHT BALANCED TREES

DECOMPOSITION OF FILES, A BASIS FOR DATA STORAGE AND RETRIEVAL

REALIZATIONS OF MATRIX SEQUENCES

Tung, F. C. See Chang, H. (K54); Shedler, G. S. (K53).

PRESENTATIONS

FRAMEWORKS FOR INTERACTIVE PROBLEM-SOLVING IN BIBLIOGRAPHIC SEARCH AND GEOGRAPHIC ANALYSIS
Bennett, J. L. American Society for Information Science, Los Angeles, California, October 22-25, 1973; and Colloquium on Information Sciences, University of California, Berkeley, California, November 8, 1973.

Bennett, J. L. See also Mantey, P. E. (K54).

INFORMATION SYSTEM IN STATE AND LOCAL GOVERNMENT
Carlson, E. D. Course: San Jose State University, San Jose, California, September 1973 - January 1974.

IS IT REALISTIC TO EXPECT LOCAL GOVERNMENT OFFICIALS TO USE INFORMATION SYSTEMS FOR PROBLEM SOLVING?
